Learning Loss

Commonly referred to as a decline in student knowledge and skills. Learning loss occurs when educational progress does not occur at the same rate at which it has historically compared to previous years.

Pier, Hough, Christian, Bookman, Wilkenfeld, & Miller, 2021

Areas of Concern

Elementary:

Algebra and Algebraic Thinking

Word Problems, specifically multi-step

Suggestions for Improvement

Elementary:

Math coaches

Pull out program similar to reading tier time

Improved use of data from online resources

Realign programs

Areas of Concern

Secondary:

PSSA and Keystone Math scores have not rebounded to pre-pandemic levels

Middle School Algebra I Keystone performance down significantly

Suggestions for Improvement

Secondary:

More classes team-taught by content specialists, particularly in mathematics

Resources allocated for individualized remediation and practice

More training opportunities on PSSA and Keystone Constructed Responses

More focus on data-based instruction and remediation
