## Curriculum Concern Form

We appreciate public input as we seek to continuously improve. This form was created so you can share any curriculum concerns you might have. These forms can be submitted throughout the school year and will be reviewed by the administration and school board's curriculum committee as they are submitted. In the spring of each year, the submitted forms will be reviewed by the applicable teachers rewriting curricula as part of our process of preparing for the next school year. Parents with a more immediate concern can discuss the issue directly with the applicable teacher and request an alternate assignment, if need be.
