

<p>National Center of Education Statistics (NCES) Technical Brief #2 “Data Stewardship: Managing Personally Identifiable Information in Electronic Student Education Records” (NCES 2011-602).</p>	<p>District Student Data and Information that is directly relevant and necessary to accomplish specified purpose(s) and complies with the School District’s Plan for the Collection, Maintenance, and Dissemination of Student Records, and for only retaining School District student Data and Information for as long as is necessary to fulfill the specified purpose(s) and School District’s Records Retention and Records Destruction Policy and Schedule requirements. It also extends to only allowing access to specific School District Student Data and Information elements to those individuals who have an authorized and a legitimate need to view and utilize those elements.</p> <p>Guests: Guests include, but are not limited to, volunteers, adult education staff and students, board members, independent contractors, and School District consultants who are authorized by the School District to have access to School District Student Data and Information.</p> <p>School District Student Data and Information: School District Student Data and Information is defined as all information content related to the students of the School District that exists in electronic, digital or paper form. The degree of protection required for different types of Student School District Data and Information is based on the nature of the data and information compliance requirements. The following four classification levels will be used for classifying School District Student Data and Information:</p> <ul style="list-style-type: none"> • Confidential Data: Confidential Data is School District Data for which unauthorized disclosure or unauthorized modification would result in significant loss to the School District, impair its ability to conduct its educational mission and business, or result in a violation of contractual agreements or federal or state laws or regulations, including, but not limited to FERPA, COPPA, IDEA (2004), CIPA, Perkins, HIPAA, and HITECH Act. <p><i>Examples: Social Security Numbers, medical records, student data that is not considered directory information, information protected by a non-disclosure agreement.</i></p> <ul style="list-style-type: none"> • Personally Identifiable Information: Personally Identifiable Information is defined differently in different laws. School District officials, employees, and Guests must be cognizant of and adhere to the applicable legal basis for the student data and information they are dealing with and apply the applicable definition of personally identifiable information. <p><i>Examples: When the issue involves the COPPA law, personally identifiable information includes: geolocation data, photos, videos, and audio files that contain a child’s image or voice, and persistent identifiers (tracked cookies). If the Pennsylvania’s Breach of Personal Information Notification Act is at issue, personally identifiable information includes: an individual’s first name or first</i></p>
--	---

	<p><i>initial and last name in combination with and linked to any one or more of the following, when not encrypted or redacted: Social Security number; driver’s license number or a State identification card number issued in lieu of a driver’s license; financial account number, credit or debit card number, in combination with any required security code, access code or password that would permit access to an individual’s financial account.</i></p> <ul style="list-style-type: none"> • Public Data: Public Data is School District Data that has been explicitly approved for distribution to the public or through some other valid authority, or complies with Pennsylvania’s Right-to-Know Law. <p><i>Examples: School District brochures providing information about the School District services, directory information, press releases.</i></p> <ul style="list-style-type: none"> • Sensitive Data: Sensitive Data is School District Data for which unauthorized disclosure or unauthorized modification would not result in direct legal, contractual or regulatory violations, but may otherwise adversely impact the School District students. Sensitive Data is generally intended for use within the School District or within a specific unit, department or group of individuals with a legitimate need-to-know. <p><i>Examples: personal cell phone numbers, internal memos, incomplete or unpublished notes of teachers or psychologists.</i></p>
<p>3. Authority</p>	<p>The School District’s policies, administrative regulations, rules, procedures, and practices must be complied with and are incorporated into this Policy, including but not limited to the Student Records Policy, the Plan for the Collection, Maintenance and Dissemination of Student Records; the School District’s HIPAA Plan; the Social Media Policy and its accompanying Administrative Regulations; the Acceptable Use Policy and its accompanying Administrative Regulation (if any); the Student Electronic Communication Device Policy; the Data Breach Notification Policy; the Cloud Computing Policy; and the student, employee, and Guest disciplinary policies, regulations, rules, procedures, and practices.</p> <p>The Superintendent is granted the authority to create and enforce an administrative regulation to accompany this Policy, at his/her discretion. This Policy must be incorporated into the accompanying administrative regulation, if it is created.</p>
<p>4. Delegation of Responsibility</p>	<p>The Superintendent, and/or designee(s) is responsible for addressing employee and Guest questions, conduct, and disciplinary issues pertaining to the privacy and security of student data and information. The Superintendent, and/or designee(s) is responsible for protecting the privacy and security of student data and information.</p> <p>The Superintendent, and/or designee(s), is responsible for developing security procedures and guidelines pursuant to this Policy, ensuring that such procedures and</p>

<p>5. Guidelines</p>	<p>guidelines are published and distributed to all employees and relevant Guests, and conducting periodic reviews of such procedures and guidelines. The developed procedures and guidelines will serve as the standards of information and data security to be applied by employees, including technology and information employees, and information users, such as teachers, aides, and volunteers, and they will be the basis for compliance monitoring, review and audit.</p> <p>The School District administrators will ensure that the standards for data and information privacy and security that affect their respective areas of responsibility are effectively implemented. The administrative duties associated with this responsibility will be assigned by the Superintendent, and/or designee(s) to designated employees, who typically are the managers responsible for the creation or collection of specified School District Student Data and Information.</p> <p><u>Cloud Computing, Storage and Services</u></p> <ol style="list-style-type: none"> 1. Different kinds of cloud computing, storage, and/or services could be used by the School District (for example: a public cloud, a private cloud, a community cloud, a hybrid cloud, or a partner cloud) for different types of cloud computing, storage, and/or services (for example: Software as a Service (SaaS), Platform as a Service (PaaS), Infrastructure as a Service (IaaS)). However, some providers may offer and deliver more than one kind or type of service. Employees and Guests must only use School District authorized kinds and types of cloud computing, storage, and services for School District Student Data and Information. 2. Many products and services that can be used in School Districts are run in clouds provided by third party service providers as opposed to on the servers operated by the School District. The third party operation, control, and storage can raise data protection, privacy, and security issues, and violate laws applicable to the School District. <p>Products and services are available with or without monetary payment for employees and Guests to deploy directly in their classrooms or with students. However, a School District process must be used by employees and Guests, where compliance and other issues are evaluated, for their use of cloud services to be authorized by the School District. See School District Cloud Computing Policy.</p> <ol style="list-style-type: none"> 2.1. Employees and Guests may not place, transfer, transmit, and store School District Student Confidential, Sensitive, and Personally Identifiable Data and/or Information in cloud products and/or services without the consent of the School District. As an example, teachers working on a student’s IEP and storing it in their personal cloud service account such as DropBox, is not authorized by the School District. 2.2. School District Student Confidential, Sensitive, and Personally
-----------------------------	--

<p>34 C.F.R. §99.33</p>	<p>Identifiable Data and Information may be required to be encrypted with School District authorized encryption during use. If so, employees and Guests must use the authorized encryption and, if appropriate, decryption software/service. Use of unauthorized encryption, decryption, and anonymizers are prohibited.</p> <p>2.3. Employees and Guests must be notified that it is possible for School District Student Confidential, Sensitive, and Personally Identifiable Data and Information to be accessed, transferred, transmitted, disclosed, and stored in the cloud when using mobile devices, as well as desktop computers, from any location. The privacy and security of Student Confidential, Sensitive, and Personally Identifiable Data and information must be protected.</p> <p>2.4 Google Apps for Education (GAFE) is a cloud service. Employees and Guests must not use GAFE for School District Student Confidential, Sensitive, and Personally Identifiable Data and Information until or unless privacy and security protections are certified and approved.</p> <p>2.5 Only authorized School District administrators using authorized School District procedures may enter into cloud computing, cloud services, and/or cloud storage contracts. Other employees, Guests, and students may not agree to contractual terms that subject the School District to cloud agreements, terms, and conditions. For example, a teacher may not click and “agree” to download an App for instructional material to use with students without School District approval.</p> <p>2.6 The School District must set up reasonable methods to ensure employees and Guests access only student records in which they have a legitimate educational interest (physical, technological, and administrative controls to prevent unauthorized use).</p> <p>2.7 The School District may not give cloud providers student Confidential, Sensitive, and Personally Identifiable Data and Information solely for the provider’s commercial behavioral advertising and student user profile product development and marketing.</p> <p><u>Online Application Software (Apps)</u></p> <ol style="list-style-type: none"> 1. School District officials must establish rules and procedures to comply with the COPPA restriction on sharing School District students’ personally identifiable information (geolocation data, photos, videos, and audio files that contain a child’s image or voice, and persistent identifiers (tracked cookies)) in mobile Apps, and third-party web sites plugins, web sites, and some online services without parent verifiable consent. 2. The School District may act as the agent of a parent(s) to provide consent for the collection of student personally identifiable information if certain
-------------------------	---

<p>20 U.S.C. § 1232g, 34 C.F.R. Part 99.1 et seq.</p>	<p>notifications and procedures required by COPPA are put into place.</p> <p>3. The School District may not authorize the commercial collection of School District Student Confidential, Sensitive, and Personally Identifiable Data and Information be collected, used, and/or shared for behavioral advertising and building a student user profile. However, the School District may contract for the sole purpose and benefit of the School District’s use of the students’ data and information (for example, a gradebook).</p> <p>4. Only authorized School District administrators using authorized School District procedures may enter into App contracts for the use with or by School District employees and students. Employees, Guests, and students may not agree to contractual terms that subject the School District to agreements, contracts, terms and conditions. For example, a teacher may not click and “agree” to download an App for instructional material to use with students without School District approval.</p> <p>5. Contracts must comply with legal requirements, and consider the needs of the School District. Some essential issues include: (1) data security, privacy and confidentiality, (2) School District access to and location of data and information, (3) service levels and remedies, (4) limitations and liabilities, disclaimers of warranties, (5) pricing, (6) jurisdiction, and (7) suspension and termination of service rights.</p> <p><u><i>Inappropriate Disclosure</i></u></p> <p>If a School District employee or Guest discovers that School District Student Confidential, Sensitive, and Personally Identifiable Data and/or Information has been disclosed inappropriately, and the students whose data and/or information were disclosed are put at risk of identity theft or other harm, the employee must immediately notify the building principal and/or a School District administrator, who will inform the Superintendent. The Superintendent will work with the attorney to ensure that those parents or students are notified promptly, and comply with the School District’s Data Breach Notification Policy.</p> <p><u><i>Information Responsibility</i></u></p> <p>All employees and Guests who use School District Student Data and Information have the responsibility to receive information and learn about the privacy and security of student information, which will be provided by the School District. Included in the responsibility is acquiring information from the School District about (1) how to protect the privacy and security of student data and information of employees and Guests personal and School District mobile devices as well as desktop computers; (2) how the secondary use of student information by third parties functions, such as App developers, marketers, cloud services, web sites, data mining services, (3) the legal and regulatory requirements to protect student information and</p>

<p>DVSD Policies</p>	<p>data; (4) the technological ways student data and information may be acquired; and (5) how to determine whether and what private data and information an App, web site, cloud service, or other data or information service collects and what they do with the data and information.</p> <p><u><i>Consequences for Violation(s) of School District Policy</i></u></p> <p>A founded charge against a School District employee or Guest who violates this Policy shall subject such employee or Guest to disciplinary action, up to and including discharge. Appropriate consequences and remedial actions range from positive behavioral interventions to and including suspension or dismissal, and may include counseling, employee or Guest conferences with supervisors and/or administrators, warnings, usage restrictions, loss of School District privileges, reassignment, oral or written reprimands, and/or legal proceedings.</p> <p>Any violation of this Policy shall be considered an infraction of the Policy and may also be considered violation(s) of other applicable School District policies, with discipline implemented accordingly on a case-by-case basis. Any violation of the Pennsylvania Crimes Code will be reported to law enforcement.</p> <p>References:</p> <ul style="list-style-type: none"> • Pennsylvania School Code – 24 P.S. §5-510 • State Board of Education Regulation – 22 Pa.
